## PREFACE

---

WE SHOULD LIKE to take you into our confidence and tell you our purpose in compiling this book. To some people, adventure can only be found in a trip to romantic, faraway places. To others—and it is to these people we dedicate our book—it lies within the four walls of home, in the familiar tasks of daily living, in the odd moments of leisure in which to create with needle and thread, the unparalleled beauty of handwork.

In compiling “THE NEEDLEWORK LIBRARY” we were thinking of the thousands of women who appreciate and admire beautiful handwork and who are forever wistfully longing to “learn how.” In this book, we embrace several branches of needlework, cramming it full of lovely and useful things to make and to own. We hope it will prove an irresistible temptation to the novice to learn a handcraft that will surely repay her with a lifetime of pleasure. We hope, too, that many women who are skilled at knitting or crochet will be induced to try their hands at quilting, embroidery, tatting or rug making. In other words, we have tried to make our own modest contribution to the renaissance of needlework arts. Explanatory steps have been included in the chapters on Crochet, Knitting and Tatting, so that the timid steps of the beginner will soon become the masterful strides of the expert.

We hope that "THE NEEDLEWORK LIBRARY" will provide the necessary incentive and instruction for the novice and fresh inspiration for the accomplished needlewoman . . . we shall feel it our greatest reward if we have been able to give our readers a key to treasure — and many future hours of pleasure!

# EMBROIDERY . . . *exquisite handmaiden of the arts*

---

*F*OR CENTURIES a pretty woman at her embroidery has been a favorite subject for artists. There is something graceful, charming and infinitely feminine about the flashing thrust of the needle, the play of light on colored floss, the toy-like scissors . . . the gradual blossoming of petal or leaf.

Every country, every civilization has made its contribution to the development of embroidery. We have gathered together a group of attractive, varied embroidery designs from many sources . . . designs that lend themselves to modern taste and usage.

You will find that embroidery works a special magic, transforms the commonplace into the unusual . . . You will discover that in the techniques of embroidery you have a new magic wand for surrounding yourself with lovely things.

## EMBROIDERY

**EMBROIDERY THREADS . . .** Your choice of threads will depend upon the type of embroidery on which you intend to work. Mercerized threads may be used on most light-weight fabrics. Heavier cotton thread produces a rich and unusual effect in certain designs. Wool is suitable for use on heavier fabrics.

All embroidery threads should be boilfast. To work with inferior materials and threads is a foolish waste of time. When the working thread begins to acquire a fuzz or becomes untwisted, take a new one.

**EMBROIDERY NEEDLES . . .** The needle with which you embroider opens the weave of the material to enable the embroidery thread to slide through easily. Therefore, when you choose an embroidery needle, the eye should be slightly larger than the thickness of the embroidery thread. Almost all embroidery needles have a much longer eye than sewing needles. The needle ordinarily used is called a crewel needle. The length of the average embroidery needle is about  $1\frac{3}{4}$  inches. A longer needle hinders the worker in gaining speed.

**SCISSORS . . .** Embroidery scissors should be about 4 to 5 inches long and should have very sharp points.

**BEGINNINGS AND FINISHINGS . . .** The wrong side of the work should look equally as well as the right side. To begin a piece of embroidery *do not use a knot*, but make a close running stitch toward the starting point, then make a small back stitch and begin to embroider in the direction specified.

To end your thread, weave the needle in and out of the material under the piece which has

just been completed, but do not allow your needle to pick up any of the embroidery stitches. When you feel that the end of the thread is perfectly secure, cut the thread close to the embroidery. *Do not carry your thread from one design to the other*, as this produces very untidy work.

**PRESSING . . .** All embroidery should be pressed on a thickly padded surface. The raised face of the embroidery sinks into the softness of the padding and is not flattened by the iron. Place the embroidery piece wrong side up. Cover with a damp cloth. With a moderately hot iron press heavily. Remove the damp cloth and iron until dry. Turn work and, on right side, iron only the hems.

**HOW TO TRANSFER DESIGNS . . .** Trace the outline of the full-sized design onto white tracing paper. Determine the position of your design on the fabric. Place a sheet of carbon paper face down on it. Use orange or white carbon paper to transfer designs onto dark fabric. Place the tracing paper over the carbon paper and go over the entire design very carefully with a sharp pencil. To avoid smudging fabric, do not let the weight of your hand rest on the paper.

**FRAMES . . .** There are several types of embroidery frames. The hand frames are most commonly used. They can be bought at a very low cost and are made in two shapes, round and oval. When frames are adjusted over a small area of the work, the material is held taut and the work cannot pucker. Larger frames for larger pieces are also available and may be adjusted for almost any size or type of embroidery.

## CROSS STITCH

Because cross stitch looks easy, people are often careless and mar its beauty by irregular crosses and top threads slanting in opposite directions. Diagram shows how cross stitch is applied to a solid fabric.

When the cross stitch design is not stamped on the background, the best way to work it is over embroidery canvas. The canvas is basted to the fabric to correspond with the weave. The weave of the canvas is a guide for keeping the stitches even. Embroider through both the fabric and the canvas. When embroidery is completed, the canvas is removed by drawing out the threads.

## SWEDISH DARNING

Huck toweling is generally used for Swedish darning. The weave has tiny vertical raised loops which occur at equal intervals, and these are used for darning the designs. A tapestry needle is always used for the darning.

To begin Swedish darning, work from left to right, drawing needle through loops  $\frac{1}{2}$  inch away from starting point. Then work from right to left over this woven thread, drawing thread through loops according to the design, taking care that needle does not pass through to back of fabric.

To finish thread, darn back closely over design for  $\frac{1}{2}$  inch and cut.

# QUILTS . . . *rare examples of an early American art*

---

THE PATCHWORK QUILT is part and parcel of our country's past—and present. While many things on the American scene have changed since Colonial days, the same precise and beautiful quilt patterns that great-great-grandmother made out of scraps of fabric are being followed by women today.

There is a wonderful feeling of continuity, of time flowing and still remaining constant, in seeing re-created, generation after generation, designs that were familiar and alive two hundred years ago. The very names of some of the patterns speak out of the past, evoking in us memories and pride.

Quilts are of two kinds—patchwork and appliqué—and are at home in either rambling ranch house or the most modern of apartments. At one time a bride's trousseau was not complete without a baker's dozen—perhaps you will not want a dozen but surely you won't be satisfied until one of these colorful designs spreads its gayety and warmth across your bed.

## PATCHWORK AND QUILTING

PATCHWORK AND QUILTING are two separate arts which were combined by the early settlers of this country to make beautiful quilts.

Patchwork is very simple, requiring only accuracy in making the units. The sewing of Patchwork consists only of a straight seam.

**FABRICS . . .** Choose only closely woven fabrics with a firm weave and a soft texture such as calico, percale, chintz, muslin or gingham.

**COLORS . . .** Fast dyes must be chosen or colors will run when quilt is laundered.

**MATERIALS . . .** All yardages specified are approximate and are figured on 36-inch fabric unless otherwise specified.

**SIZES . . .** The measurements for the quilts included in this book have been planned for standard size beds. The illustrations show the setting of the quilts.

### HOW TO MAKE A PATTERN

*(All units illustrated are actual size)*

The number of each unit to be cut will be specified with each direction.

1. Trace the design onto a piece of tracing or tissue paper.
2. Cut along tracing line.

Fig. 1

Fig. 2

Fig. 3

Fig. 4

Fig. 5

Fig. 6

3. Place pattern on top of a glazed blotter or sand paper and, holding it firmly in left hand cut around paper pattern (Fig. 1). Make a number of patterns at one time so that when one pattern is worn a second may be easily picked up.

### HOW TO CUT UNITS

1. Even material off by pulling a thread or tearing it.
2. Press material through a damp cloth.
3. The threads that run lengthwise and crosswise are known respectively as the lengthwise and crosswise grain. Place the pattern on the lengthwise grain of the material and with pencil make a tracing line (Fig. 2).
4. Trace number of units for 1 block, leaving  $\frac{1}{2}$  inch space on all sides between each tracing line for seam allowance (Fig. 3).
5. Cut out the units  $\frac{1}{4}$  inch away from tracing line on all sides (Fig. 3).
6. Place pattern directly over the tracing and cut unit and with a moderately hot iron press back the seam allowance over the pattern thus making a distinct guide line for sewing (Fig. 4).

Fig. 7

### HOW TO SEW UNITS TOGETHER

The central principle of patchwork is joining the units from the center out. All joinings are made by stitching the units together with a running stitch on wrong side (Fig. 5). A thread approximately 18 inches long is the correct length for sewing.

### PRESSING

Pressing the seams frequently improves the appearance of the quilt.

### SETTING THE QUILT TOGETHER

This is combining the blocks and the border of the quilt. All borders are described where required. Blocks are joined in strips and then the strips sewed together. The border is sewed on last.

### LINING OF QUILT

The backing should be cut the same size as the top unless you wish to bring the edges of the backing over the top for a binding. In the latter case it should be  $2\frac{1}{2}$  inches larger all around. The material should be of the same quality as the top. A percale sheet which is soft and free of starch may be used.

### INTERLINING OF QUILT

Cotton batting is the most popular and practical interlining. One batt is sufficient for a single size quilt.

### PLACING THE THREE LAYERS TOGETHER

Lay the lining flat, smoothing it out. The cotton batting is placed on top of the lining and also smoothed out so that there are no wrinkles. The top is placed over these two layers (Fig. 6), and all three layers are very carefully basted together.

Fig. 8

### BASTING THE THREE LAYERS TOGETHER

Starting at center of quilt, baste out to each side through all three layers. Then, starting at center again, baste to each corner diagonally. Then baste all outer edges together (Fig. 7).

### QUILTING FRAMES

The purpose of a quilting frame is to hold the work taut. All quilting frames have two horizontal bars, 2 inches wide and deep and about 92 inches long. These are held in place by 2 vertical bars, 2 inches wide and about 24 inches long, which have a contrivance for controlling the horizontal bars. To place the quilt on a frame, remove the 2 horizontal bars, then nail a tape, 2 inches wide, to one side of each horizontal bar. Sew the top and bottom edges of the quilt to these tapes. Roll one end up until you reach the width of the vertical bars. Place quilt on frame and roll until it is taut. To hold the sides taut, thread a needle with a strand of PEARL COTTON, Size 5, and make a knot at one end. Insert needle  $\frac{1}{2}$  inch in from side edge and draw thread through. Then wind thread over the vertical bar and insert needle in quilt 1 inch away from previous thread. Continue in this manner across the entire length of the vertical bar and fasten end securely. Repeat on the opposite side (Fig. 8).

### QUILTING HOOPS

Large hoops, 22 inches in diameter, are also used for quilting.

## QUILTING

1. Each quilting design is transferred to the block by pricking the outline with a needle.
2. Thread a needle with an 18-inch length of thread and make a knot at one end.
3. Place the forefinger of left hand over the spot where the needle should come through. With right hand push the needle from underneath up through the three layers of material until needle touches the tip of forefinger of left hand, thus indicating that it is coming through at the correct spot (Fig. 9). Remove forefinger of left hand and with right hand draw the needle and thread through until the knot is concealed in the interlining (Fig. 10).
4. Place the forefinger of left hand under the spot where the needle should come through. With right hand push the needle downward through the three layers, until needle touches the tip of forefinger of left hand (Fig. 11). Remove forefinger and with right hand draw the needle and thread through.

Fig. 9

Fig. 10

Fig. 11

5. Alternate Steps 3 and 4, taking care to fasten the end of each thread securely.
6. The upward and downward movements through the three layers of fabric and the alternating of the position of the hands are the only correct ways of quilting. When you complete the quilting within a comfortable reach, rip out the strands on the sides, roll the quilt toward you and begin again.
7. After the quilting is completed, bind the edges.

## Yankee Pride

This pattern is an adaptation of a popular quilt design which originated in New Orleans. It was named the LeMoyne Star in honor of Jacques LeMoyne, Sieur de Bienville, founder of the city. After Louisiana was purchased by the United States in 1803, American women called the design the Lemon Star, and it began to appear in different parts of the country in various forms.

**Materials:** For Single Size, 72 x 108 inches—1½ yards of white, 6 yards of yellow, 2 yards of red print and 1¼ yards of red. For Double Size, 96 x 108 inches—Make 56 blocks set 7½ before adding border. Use Best Six Cord, Heavy Duty or Quilting Thread.

See pages 54, 55 and 56 for general directions.

Each block is made of 4 different kinds of units. Patterns are given for Unit Nos. 1, 2 and 5; Unit Nos. 3 and 4 are respectively a 1½ inch and a 3½ inch square.

**Number of Each Unit to Cut for 1 Block.**

Using white, cut 2 strips  $2\frac{1}{2} \times 66$  inches and 2 strips  $2\frac{1}{2} \times 102$  inches. Sew corresponding red strips to each side of quilt, mitering corners. Then sew on the white strips. With red, cut 116 No. 5 units; with white, cut 116 No. 5 units. Make a border by sewing a white and a red triangle together as shown.

**Quilting . . .** 1. On all No. 1 units quilt  $\frac{1}{8}$  inch away from all seams.

2. On No. 3 units divide squares into 3 equal parts on all sides and work 2 vertical and 1 horizontal rows.

3. Divide each side of No. 2 unit into 3 equal parts and quilt as shown.

4. On No. 4 unit make 5 diagonal lines of quilting, working from inner point out—these lines join points on each side.

5. Trace two No. 1 units in corner as shown and quilt. When completed, finish edges by turning in edge of border and lining  $\frac{1}{2}$  inch then slip stitch together.

## Roman Stripe

Early New England women, remembering the thrifty custom which they had observed in Holland, pieced together their scraps of precious material to make comfortable bed coverings. The early patterns were called Crazy Quilts or Hit-and-Miss. The Roman Stripe was an attempt to give a more formal arrangement to this piecing.

*Materials are not given for this quilt, because it is an excellent way to use up scraps. Use Best Six Cord, or Heavy Duty or Quilting Thread.*

**Number of Each Unit to Cut . . .** See page 54 for making the pattern and cutting the units. For 1 block cut 1 print and 2 solid color units each  $1\frac{1}{2} \times 3\frac{1}{2}$  inches.

**How to Combine Units to Form a Block . . .** Sew a solid color on each side of a print unit.

**Setting the Quilt . . .** One block is placed horizontally and the next vertically throughout entire quilt (see illustration).

**Quilting . . .** Quilt each unit  $\frac{1}{8}$  inch away from seams on all sides. Then quilt along the center. Bind edges with a solid color.

## A Star That Traveled

This star first appeared in New England. The wives and daughters of seafaring men made it in the shape of a Ship's Wheel. The design traveled westward with Cape Cod families. In Pennsylvania, a farm woman saw the doves that gathered at the openings high under the eaves of the great barns. She used the star to put them in a quilt and called it Four Doves In a Window. Farther west in the rich farm lands, the harvest and the autumn colored trees glowing in the sunlight inspired a brilliantly colored star called the Harvest Sun.

Each 17-inch block is made up of 4 units. Patterns are given for Units No. 1, No. 2 and No. 3. Unit No. 4 is a circle 3¾ inches in diameter.

# APPLIQUÉ

Appliqué differs from patchwork in that the units are hemmed to another piece of cloth in order to form a design, instead of being pieced together. Although most quilts are made either of patches or appliqué, there are some which combine both.

## HOW TO MAKE PATTERNS

See page 54.

### STEMS

Use bias strips, 1½ inches wide, folded twice as shown in Fig. A.

### APPLYING DESIGNS

To apply the design in its correct position, crease the block to provide guide lines for placing the design.

Fig. 1. Fold in half and crease with thumb nail.

Fig. 2. Unfold and fold in the opposite direction and crease.

Fig. 3. Fold from corner to corner.

Fig. 4. Fold from corner to corner in the opposite direction.

Fig. 5. Shows the creases made by the various folds.

All designs are applied in relation to the center and to the lines which have been creased. Leaf ends are tucked under stems, stem ends are covered with buds or flowers, and all raw ends are turned under. When applying a curved unit, baste ¼ inch away from outside edge and pull slightly to form curved edge; or clip well into the fold on the curves to make the pieces lie flat.

When entire design has been basted in place, sew around the edge with small, invisible stitches, taking care not to pull stitches too tightly because this puckers the material.

Cutting Units

## Rose of Sharon

The Rose of Sharon was a favorite bride's quilt. The name was taken from the Song of Solomon in the Bible.

And the lily of the valleys.  
As the lily among the thorns  
So is my love among the daughters.*

**97 x 121½ inches**

**Materials:** ½ yard of rose print, 1 yard of rose, ½ yard of pink print, 7 yards of green print, ½ yard of gold and 11½ yards of white 39 inches wide. Use Best Six Cord, or Heavy Duty or Quilting Thread.

Each block is made up of 7 units. Patterns are given for half of Unit Nos. 1, 2, 3 and 4; Unit Nos. 5 and 6 are inside each other. Unit No. 7 is complete.

**To Apply Design . . .** Place rose print bud 2¼ inches away from corner point.

**Setting the Quilt . . .** For border cut 2 strips of white 12½ x 97½ inches and 2 strips 12½ x 122 inches. Sew to corresponding sides mitering corners. Using green print, make five 12-inch scallops, 12 inches wide and 5½ inches deep for each short side, and 7 for each long side (use a plate or a victrola record 12 inches in diameter for making the pattern). Place center of one scallop to center of each side, then place the remainder of scallops adjacent to each other as shown. Make a scallop to fit each corner. Complete border with buds.

**Quilting . . .** Quilt as shown.

## Turkey Track

Pioneer mothers, fearing that "Wandering Foot" suggested wanderlust, rechristened this beautiful quilt pattern "Turkey Track."

Birds in the Air

Block—12 inches square

## Birds in the Air

The originator of this quilt took much pleasure in the world about her, if we are to judge from the name she chose. She combined the familiar nine patch with appliqué to illustrate her pleasant fancy.

**Materials:** 8 yards of white, 3 yards of rust, 2 yards of gold, 2 yards of brown print, 2 yards of yellow print. Use Best Six Cord, or Heavy Duty or Quilting Thread.

Each block is made up of 5 units. Patterns are given for Unit Nos. 1 and 2. Unit Nos. 3, 4, and 5 are respectively 2 inches square, 3 inches square, and a rectangle 3 x 6 inches.

When quilting is completed, bind all edges with rust.

# KNITTING . . . *makes fine fashion sense for you and your family*

---

SOMETIMES IT SEEMS that one should add the title of Financial Genius to the designation of mother and homemaker. No matter how thrifty or ingenious she is, there comes a point at which the budget balks and refuses to stretch another penny's worth. That is why mothers all over America are *knitting two, purling two*, trying to keep the budget balanced and the whole family in sartorial splendor.

Mothers and daughters who knit will find plenty of attractive reasons in the section that follows for keeping their needles clicking. Daughters will go for the plaid skirt with matching stole, the three color jerkin; mother for the pearl-fastened cardigan, the long torso beaded blouse. Then there is an argyle pullover for a young athletic star, a sleeveless pull-over for the man of the house, an adorable pinafore for a very young miss and something wonderful afoot for every member of the household.

## HOW TO KNIT

**PRACTICE PIECES . . .** Whenever a gauge appears in a direction, it is wise to make a practice piece to be sure that you have the same gauge as that specified before you proceed with your work. **BECAUSE**—if your gauge is different, your article when finished will not be the same as the one shown in the picture. If you have fewer stitches to the inch, use a smaller needle. If you have more stitches to the inch, use a larger needle.

### Guide to Right-Handed Knitters

If you work with your Right Hand, the following steps show you the position in which your hands should be.

**CASTING ON . . . The First Step in Knitting**  
Putting the first stitches on the needle is called casting on.

1. To cast on 20 stitches in the material suggested, it will be necessary to measure off 16 inches of yarn (Fig. 1).

2. Make a slip loop 16 inches from the end of the yarn (Figs. 1, 2, 3 and 4).

3. Place the loop on the needle and gently pull the ends of the yarn (not too tight Fig. 5). The ball end of the yarn is to the right and the free end of the yarn is to the left.

Fig. 1

Fig. 2

Fig. 3

Fig. 4

Fig. 5

**WHAT TO DO WITH THE RIGHT HAND**

1. Place the needle between the thumb and first finger, as if you were holding a pencil (Fig. 6).
2. Be sure that the loop is near the pointed end of the needle (Fig. 6).
3. Using the ball end of the yarn, place the yarn loosely over the first finger, under the second, over the third, under the fourth above middle joint (Fig. 6). The second and third fingers are very important because they keep the flow of yarn even, not too tight or not too loose, that is, they regulate the correct tension.

Fig. 6

Fig. 8

**WHAT TO DO WITH THE LEFT HAND**

1. Grasp the free end of the yarn lightly against the left hand with the second, third, and fourth fingers (Fig. 7).
2. Place the yarn near the needle around and under the thumb (Fig. 8).

**NOW YOU ARE READY FOR WORK**

Bring the hands close together and adjust the yarn. For position see Fig. 9.

1. Notice that the yarn makes a loop around the left thumb.
2. Insert your needle through the underside of the loop (Figs. 9 and 10).

Fig. 7

Fig. 9

Fig. 10

3. Bring the yarn in the right hand over the point of the needle from the back (Fig. 11).
4. Draw it through the loop (Fig. 12).
5. Gently pull the free end of the yarn with the left hand to tighten the stitch (Fig. 13).
6. Place the yarn around thumb as directed before and repeat Steps 2 to 5 inclusive until you have 20 stitches.

## The Knit Stitch

### Plain Knitting or Garter Stitch

#### WHAT TO DO WITH THE LEFT HAND

1. In the left hand, hold the needle with the stitches just cast on. For position see Fig. 14.
2. The first stitch is held lightly by the index finger near the tip of the needle (Fig. 14).

#### WHAT TO DO WITH THE RIGHT HAND

1. Hold the needle between the thumb and the index finger, as if you were holding a pencil (Fig. 15).
2. The yarn is placed over the first finger, under the second, over the third, and under the fourth above the middle joint. As you practice knitting, you will learn to adjust the yarn so that you will get the best results (Fig. 15).

#### NOW YOU ARE READY FOR WORK

Bring your hands close together. Adjust the yarn and insert needle in first stitch as in Fig. 16.

## FIRST ROW

1. Insert the right needle into the front of the first stitch on the left needle from the left side (Fig. 17).

2. Steady the right needle against the forefinger of the left hand. Keep your yarn to the back of your work.

3. With the right hand bring the yarn over the point of the right needle (Fig. 18).

4. Draw the yarn through the stitch (Fig. 19).

5. Slip the old stitch off the left needle, thus completing the first stitch. A new row is being formed on the right needle (Fig. 20).

6. Always keep pushing your work up so that the stitch on which you are working is near the tip of the needle.

7. Repeat Steps 1 to 5 inclusive until all the stitches have been knitted off the left needle. An easy way to remember these steps is to repeat to yourself: "In"—(Step 1—Fig. 17)—"Over"—(Step 2—Fig. 18)—"Through"—(Step 3—Fig. 19)—"Off"—(Step 4—Fig. 20).

8. Now you have knitted one row. You should have 20 stitches on the needle.

Fig. 17

Fig. 18

Fig. 19

Fig. 20

## SECOND ROW and SUCCEEDING ROWS

1. Change the needle with the stitches into the left hand.

2. The empty needle is in the right hand. The yarn is over the first finger, under the second, over the third, and under the fourth above the middle joint (Fig. 15).

**NOTE:** When using a long needle many knitters tuck one end of the right needle under the right arm. This relieves strain and enables you to knit faster.

3. Insert right needle into the front of the first stitch on the left needle from the right side and slip the first stitch off the left needle onto the right needle without knitting. Do this with the first stitch of each succeeding row and you will have a smooth edge known as a chain edge (Fig. 21).

Fig. 21

4. Bring your yarn to the back of your work by passing it between the two needles.

5. Proceed as before (Fig. 21). Watch your work closely.

**NOTE:** It is not necessary or even desirable to use the chain edge in all cases. It makes a smooth edge on straight knitting. The closed edge produced by knitting every stitch is especially used when shaping various parts of a garment.

### Binding Off

When you have worked 10 rows you are ready to finish off the swatch. This process is called binding off.

**NOTE:** Beginners have a tendency to bind off too tightly. To prevent this, many knitters use a needle two sizes larger in the right hand.

1. Slip the first stitch on the row off the left needle onto the right needle without knitting.
2. Knit the second stitch very loosely. (There are two stitches on the right needle).
3. Insert the left needle through the left side of the first stitch (Fig. 22).
4. Keep the yarn in the right hand very loose so that the second stitch remains loose.
5. Bring the first stitch forward over the second stitch and over the tip of the needle so that one stitch remains on the needle (Fig. 22).
6. Knit the next stitch loosely. There are two stitches on the right needle.
7. Repeat Steps 3 to 6 inclusive (Fig. 22).
8. When you come to the last stitch, clip your yarn about three inches from the needle. Bring the loose end through the stitch remaining on the needle and pull tightly. Darn in loose end so that it will not show.

sl 1, k 1, p.s.s.o., k 1. Turn. **6th row:** Sl 1, p 4. Turn. **7th row:** K 4, sl 1, k 1, p.s.s.o., k 1. Turn. **8th row:** Sl 1, p 5. Turn. **9th row:** K 5, sl 1, k 1, p.s.s.o., k 1. Turn. **10th row:** Sl 1, p 6. Turn. **11th row:** K 6, sl 1, k 1, p.s.s.o., k 1. Turn. **12th row:** Sl 1, p 7. Turn. **13th row:** K 7, sl 1, k 1, p.s.s.o., k 1. Turn. **14th row:** Sl 1, p 8 (9 sts). **15th row:** K 9. Break off extra ball.

**INSTEP . . .** With remaining ball of yarn, pick up and knit 16 sts down side of heel (see Fig. 5). Place a marker on right hand needle. Follow chart or work in pattern across. Place another marker on right hand needle. Pick up and knit 16 sts along other half of heel and knit across remaining heel sts.

**To Shape Instep:** **1st row:** Purl across to marker, transfer marker, follow chart or work in pattern across to next marker, transfer marker and purl to end of row. **2nd row:** Knit to 3 sts before marker, then sl 1, k 1, p.s.s.o., k 1, transfer marker, follow chart or work pattern across to next marker, transfer marker, k 1, k 2 tog, knit to end of row. Repeat the last 2 rows alternately until the sts on the outside of each marker are reduced to one-half

the total number of stitches between markers at center. Work until top of chart is reached or until the same number of patterns are made as shown in photograph.

**To Complete Foot:** Work with main color only as follows: **1st rnd:** With double-pointed needle knit to marker—this is 1st needle; remove marker, with 2nd needle knit across center sts; remove marker; with 3rd needle knit remaining sts. (The sts on the 1st and 3rd needles when added together should amount to the same number of sts as those on 2nd needle. If there is an odd stitch on second needle, then decrease 1 st on 3rd needle).

Join and work in rnds (knit each rnd) until foot measures 2 inches less than desired length from back of heel.

**To Shape Toe:** **1st rnd:** On 1st needle, knit across to last 3 sts, k 2 tog, k 1; on 2nd needle k 1, sl 1, k 1, p.s.s.o., knit to last 3 sts from end of needle, k 2 tog, k 1; on 3rd needle, k 1, sl 1 k 1, p.s.s.o., knit to end of needle. **2nd rnd** Knit around. Repeat the last 2 rnds until 16 st remain. Weave sts together—see page 135.

Sew up back seam neatly, matching colors.

# CROCHET . . . *for connoisseurs of loveliness*

---

**I**F A POLL WERE TAKEN on hobbies, crochet would be found among the five top favorites. Certainly there are very few hobbies you can take with you to luncheons, picnics and Aunt Emma's tea party. It requires no elaborate equipment, a very modest investment. From a slender needle, thread and a page of instructions come forth rare and beautiful designs to ornament and enrich your home. Relaxing, soothing and strictly non-strenuous, crochet is a complete rest-cure to be taken in easy sittings.

For those of you who are novices, the crochet section begins with some small, useful and easy-to-make articles. These, we hope, will make your practice period pleasant and rewarding and whet your appetite for MORE. The experienced crocheter will find plenty of opportunity for displaying her skill on the variety of lacy doilies, handsome luncheon sets and exquisite tablecloths, while filet fans will delight in working on two of the most magnificent cloths ever to grace a dinner table.

## HOW TO CROCHET

### For Those Who Work With Their Right Hand

#### BEGIN BY MAKING A LOOP

1. Grasp thread near end between thumb and forefinger of left hand.
2. With right hand make loop by lapping long thread over short thread.
3. Hold loop in place between thumb and forefinger of left hand (Fig. 1).
4. Take hold of broad bar of hook as you would a pencil.
5. Put your hook through loop, catch long end of thread, draw it through (Fig. 2).
6. Do not remove hook from thread.
7. Pull short end and ball thread in opposite directions to bring loop close around the end of the hook, but not too tight (Fig. 3).

Fig. 1

Fig. 2

#### WHAT TO DO WITH THE LEFT HAND

1. Measure with your eye about 4 inches down ball thread from loop on needle.
2. At about this point insert thread between your ring and little fingers. (Palm of hand facing up, Fig. 4).
3. Bring thread toward back, under little and ring fingers, over the middle finger, and under the forefinger toward the thumb (Fig. 5).
4. Grasp needle and loop between thumb and forefinger of left hand.
5. Gently pull ball thread so that it lies around the fingers firmly but not tightly (Fig. 6).
6. Catch knot of loop between thumb and forefinger.

### WHAT TO DO WITH THE RIGHT HAND

1. Take hold of broad bar of hook as you would a pencil.
2. Bring middle finger forward to rest near tip of hook (Fig. 7).

### BEFORE YOU BEGIN THE CHAIN STITCH

1. Adjust fingers of left hand as in Fig. 8. The middle finger is bent in such a way as to regulate the tension, while the ring and little fingers prevent the thread from moving too freely. As you practice you will become more familiar with the correct position.

Keep in mind that the motion of the hook in the right hand and the thread in the left hand should be easy and smooth. One of the most common faults of beginners is either to crochet too tightly or too loosely. Ease will come with practice.

### Chain Stitch

1. Pass your hook under thread and catch thread with hook. (This is called "thread over"—Fig. 9).
2. Draw thread through loop on hook. This makes one chain (ch). (Do not work tightly).
3. Repeat Steps 1 and 2 until you have as many chain stitches as you need. One loop always remains on the hook (Fig. 10).
4. Always keep thumb and forefinger of your left hand near stitch on which you are working.
5. Practice making chains until they are of size.

## For Those Who Work With Their Left Hand

### BEGIN BY MAKING A LOOP

1. Grasp thread near end between thumb and forefinger of right hand.
2. With left hand make a loop by lapping long thread over short thread.
3. Hold loop in place between thumb and forefinger of right hand (Fig. 1).
4. With left hand take hold of broad bar of hook as you would a pencil.
5. Insert hook through loop and under long thread. With left hand catch long end of thread (Fig. 2). Draw loop through.
6. Do not remove hook from thread.
7. Pull short end and ball thread in opposite directions to bring loop close around the end of the hook, but not too tight (Fig. 3).

### WHAT TO DO WITH THE RIGHT HAND

1. Measure with your eye about 4 inches along ball thread from loop on hook.
2. At about this point insert thread between your ring and little fingers, having palm of hand facing up (Fig. 4).
3. Bring thread toward back, under little and ring fingers, over the middle finger, and under the forefinger toward the thumb (Fig. 5).
4. Grasp hook and loop between thumb and forefinger of right hand.
5. Gently pull ball thread so that it lies around the fingers firmly but not tightly (Fig. 6).
6. Catch knot of loop between thumb and forefinger.

Fig. 4

## WHAT TO DO WITH THE LEFT HAND

1. Take hold of broad bar of hook as you would a pencil.
2. Bring middle finger forward to rest near tip of hook (Fig. 7).

## BEFORE YOU BEGIN THE CHAIN STITCH

Abbreviation—ch

1. Adjust fingers of right hand as in Fig. 8—the middle finger is bent to regulate the tension, the ring and little fingers control the thread. The *motion of the hook in the left hand* and the *thread in the right hand* should be free and even. Ease comes with practice.

## CHAIN STITCH

1. Pass your hook under thread and catch thread with hook. This is called "thread over" (Fig. 9).
2. Draw thread through loop on hook. This makes one chain (ch).
3. Repeat Steps 1 and 2 until you have as many chain stitches (ch sts) as you need—1 loop always remains on the hook (Fig. 10).
4. Always keep thumb and forefinger of your right hand near stitch on which you are working.
5. Practice making chain stitches until they are even in size.

**For Left Handed Pupils Only:** Place a pocket mirror to the left of each illustration and you will see the exact position in which you work reflected in the mirror.

# TATTING . . . *the perfect finishing touch for your possessions*

---

**I**F TATTING IS NEW TO YOU, you'll be surprised how easy—and enjoyable—it is to learn. In no time your shuttle will be flying through the thread, and your only problem will be in choosing from the myriad enchanting designs. There are gossamer doilies and place mats, a tablecloth of extraordinary delicacy and beauty . . . One edging is lovelier and more delicate than the next. There is no limit to the ways in which you will use them . . . on guest towels, pillow slips, to give a touch of luxury to a simple slip or night dress, or to add a handmade look to your tea napkins.

## How to Tat

**Shuttles . . .** Shuttles are made of various materials, such as Bone, Tortoise Shell, and Steel. Some are shaped like the one shown in the illustrations. Others are made with a hook at the end, but the latter is not practical, for it hinders the worker in gaining speed.

**Winding the Shuttle . . .** Wind thread around the bobbin in center of shuttle. If there is a hole in center of bobbin, insert thread through the hole and tie a knot. In some instances the bobbin is removable. Do not wind thread beyond the edge of shuttle.

**Tatting Threads . . .** Tatting is made with fine thread. Tatting-Crochet comes in lovely colors and is especially suited to work of this type. For coarser work, use Best Six Cord Mercerized Crochet in Sizes 20 and 30.

**Materials:** BEST SIX CORD MERCERIZED CROCHET, Size 20, 2 balls . . . One tatting shuttle with a pointed end.

With this thread you will be able to practice and then you can make the dainty towel edging shown on page 178.

Fig. 3

Fig. 4

## LEARN HOW STEPS

### WHAT TO DO WITH THE LEFT HAND

1. Grasp the free end of the thread between thumb and forefinger.
2. Spread the middle, ring and little fingers and encircle them with the thread.
3. Bring the thread around to make a circle and hold securely between the thumb and forefinger (Fig. 1).
4. Bend the little finger to catch the thread against the palm (Fig. 2).
5. Bend the middle finger back to catch the loose part of the circle (Fig. 3).
6. Adjust the thread so that the fingers do not feel strained.

Fig. 5

Fig. 6

Fig. 7

Fig. 8

### WHAT TO DO WITH THE RIGHT HAND

1. Unwind shuttle so that shuttle thread is about 12 inches long (Fig. 4).

2. Hold shuttle so that pointed end is facing the left hand and thread coming from back of bobbin (Fig. 4).

3. Grasp flat side between thumb and forefinger in a horizontal position, holding the other three fingers on a level with the forefinger (Fig. 4).

3. With thread in this position, bring the shuttle forward and insert it *under* (Fig. 5) and bring it back *over* thread held between middle and forefinger of left hand (Fig. 6).

4. *Drop middle finger* of left hand.

5. *Draw shuttle thread taut* (Fig. 7) and hold it in this position until first half of double stitch is completed.

6. *Slowly raise middle finger of left hand*, thus sliding loop into position between thumb and forefinger (Fig. 8). This completes first half of a *double stitch*.

### The Double Stitch—The Basic Stitch of Tatting

#### FIRST HALF OF THE DOUBLE STITCH

1. Draw shuttle thread out to its full length, keeping right and left hands at equal levels (Fig. 4).

2. Pass the shuttle thread under and then over the right hand below the top joint of fingers (Fig. 5).

**NOTE:** Be careful to do Steps 4, 5 and 6 exactly as directed. Notice as you work that the shuttle thread is encircled by a loose loop made by the circle of thread in left hand. The importance of keeping the shuttle thread taut until this loop is in position cannot be overemphasized.

Fig. 9

Fig. 10

## SECOND HALF OF DOUBLE STITCH

1. Bring shuttle forward again and, keeping back end of the shuttle toward you, carry it *over* and bring it back *under* the thread held between the middle and forefinger of left hand. (Please note that this time the thread is *not* wound around the hand.) (Figs. 9 and 10).

2. Drop middle finger of left hand.

3. Draw shuttle thread taut and hold in this position until second half of double stitch is completed.

4. Slowly raise middle finger, thus sliding loop into position between thumb and forefinger of the left hand (Fig. 11). This completes second half of the Double Stitch, the basic stitch in Tatting.

**NOTE:** The shuttle thread, when pulled, should slide easily. If it does not, you did not follow the *italicized directions* exactly, and you must begin again.

Practice this stitch until you do it with ease. Strive to make automatic the *italicized directions*.

## Rings, Picots and Joinings

All tatting designs contain rings and picots. The ring forms the basis of the design. The picots are used for decoration and for joining.

Practice the following directions. They give in detail the fundamentals of rings, picots and joinings. When your rings are even and your picots uniform in size, cut off your practice piece and begin again, because the same directions will make the attractive edging for the Guest Towel on page 178.

### FIRST RING

**NOTE:** The working stitch always comes between the thumb and forefinger. In Figs. 12, 13 and 14 the fingers should come where the arrow points. The drawings are made in this manner so that all the steps may be clear.

1. Make four double stitches (ds). (Follow directions on page 178).

2. Next make the first half of a double stitch (ds), but as you slide it into position stop about  $\frac{1}{4}$  inch from the preceding double stitch (ds) (Fig. 12).

3. Complete the double stitch (ds) (Fig. 13).

4. Draw the entire stitch close to the first four stitches (Fig. 14). The little loop formed from the space left between the stitches is a *picot* (p).

5. Make four more double stitches (ds).

6. Please note that Steps 2, 3, 4 and 5 should be written 1 picot (p) and 5 double stitches (ds). A picot refers only to the loop and does not include the double stitch which fastens the loop.

7. Make another picot and five double stitches (see Step 6).

8. Make a picot and four double stitches.

9. Holding the stitches securely between thumb and forefinger of left hand, draw the shuttle thread tight so that the first and last stitches meet, forming a ring (Fig. 15).

## SECOND RING and JOINING

1. Wind the thread around the left hand in position for another ring.

2. Make 4 double stitches  $\frac{1}{4}$  of an inch away from ring just made.

3. Insert pointed end of shuttle through the last picot of previous ring and catch the thread encircling the left hand.

4. Pull the thread through until there is a loop large enough to insert shuttle (Fig. 16).

5. Pull the shuttle through loop and draw the shuttle thread tight.

6. Slowly raise middle finger of left hand to draw up the loop. This joins the new ring to the old one and counts as the first half of the next double stitch.

7. Complete the double stitch.

8. Repeat Steps 5 to 9 under First Ring.

Continue in this manner for each succeeding ring, repeating Steps 1 to 8 under Second Ring and Joining.

The preceding directions have been given in detail so as to make the steps clear in your mind. Now you are ready to read the same directions as they would appear in a book. (The abbreviations are explained to make the directions easier for a beginner to read).

Fig. 16

**GUEST TOWEL EDGING**

### **Edging . . . . For Guest Towel**

R (ring) of 4 ds (double stitches), 3 p's (picots) sep (separated) by 5 ds, 4 ds, cl (close); \* sp (space) of  $\frac{1}{4}$  inch; r (ring) of 4 ds, join to the last p of previous r, 5 ds, 2 p's sep by 5 ds, 4 ds, cl. Repeat from \* for length desired.

### **JOINING THE THREAD**

When a new thread is required make a square knot close to the base of the last ring or chain, but do not cut off the ends, for the strain of the work may loosen the knot. If you make a knot in the thread, cut it off and tie the new thread close to last ring. Knots prevent the ring from being drawn up, for they will not pass through the double stitches. Cut off loose ends later.

## REVERSING YOUR WORK

In tatting you have noticed that the rounded end of the loop on which you are working faces the top. However, you can produce an effect such as that shown in Handkerchief Edging by turning your work first up and then down. The directions will say rw (reverse work). To do this, the ring you have just worked is turned so that the base of the ring faces the top, and the new ring is worked as usual with the loop side up.

## Handkerchief Edging

### Reversing Your Work

**Materials:** TATTING-CROCHET, Size 70, 2 balls.

Repeat from \* for length desired, joining to first p of lr.

## HANDKERCHIEF EDGING

## Using a Ball Thread and a Shuttle

Some tatting designs contain chains besides rings and picots. Rings can be made only with the shuttle thread wound in a complete circle around the left hand. Chains can be made only with a thread wound halfway around the hand (Fig. 17). When rings and chains appear in

Fig. 17

the same design it is necessary to use two working threads (a shuttle thread and a ball thread). Tie end of ball thread to end of shuttle thread. When you are making a ring, use the shuttle thread in the regular manner.

When the ring is completed and you wish to make a chain, turn it so that the base of ring is held between the thumb and forefinger (see Fig. 17). Stretch the ball thread over the back of the fingers in same way as shuttle thread, but instead of making a complete circle, wind it twice around the little finger to control tension (Fig. 17). Work over the ball thread with the shuttle in the same manner as in making rings. (Picots and joinings are made in the same way as on rings.) When you have finished the chain, pull the stitches close together and put down the ball thread. Pick up the shuttle thread to make another ring.

## Luncheon Set

**Materials:** BEST SIX CORD MERCERIZED CROCHET, Size 20, 9 balls of White or Ecru . . . 3½ yards of linen, 36 inches wide.

Mat 15 x 33 inches, place mats 11 x 16½ inches, and napkins, each about 16½ inches square.

**PLACE MAT (Make 6)** . . . Cut 6 pieces of

linen, each 12½ x 18 inches. Make a ½-inch hem all around, with hemstitching.

**CORNER MOTIF (Make 4 for each mat)** . . . Use shuttle and ball of thread.

**FLOWER . . . 1st rnd:** With shuttle make r of 2 ds, 4 p's sep by 3 ds, 1 ds, cl. Tie ends securely and cut. **2nd rnd:** Tie shuttle and ball threads to one p of r. \* Make a ch of 2 ds, p, 2 ds, p, 2 ds, join to next p of r. Repeat from \* around. Tie ends and cut. **3rd rnd:** Tie threads to one p of previous rnd. \* Make a ch of 3 ds, p, 3 ds, join to next p. Repeat from \* around. Tie ends securely and cut off ball thread (8 scallops in rnd).

**SPRAY . . .** With shuttle, sp of ¼ inch. R of 4 ds, join to adjacent p of 3rd rnd, 8 ds, p, 4 ds, p, 8 ds, cl. Rw. Leave no sp. R of 4 ds, join to adjacent p of 3rd rnd, 8 ds, p, 4 ds, p, 8 ds, cl. Insert tip of shuttle in the sp to the right of the ¼ inch thread and fasten securely (as for joining to a p). One group of 2 rings is made.

\* Rw, sp of ⅜ inch. R of 4 ds, join to first p of adjacent r, 8 ds, p, 4 ds, p, 8 ds, cl. Rw, no sp. R of 4 ds, join to first p of adjacent r, 8 ds, p, 4 ds, p, 8 ds, cl. Insert tip of shuttle in sp to the right of ⅜ inch thread and fasten securely (as for joining to a p). Repeat from \* until 14 rings are made (7 groups of 2 rings each). Sp of ¼ inch. R of 4 ds, join to adjacent p, 8 ds, p, 8 ds, join to adjacent p of r at opposite side, 4 ds, cl. Tie securely and cut. A spray is now made on one side. Skip 2 scallops of flower, attach shuttle thread and make a 2nd spray at right angle to first spray, joining first 2 rings of spray to next 2 p's of flower. This completes one corner motif.

Baste corners to linen, having outer edges of corners ½ inch in from hemstitching. With a ruler and pencil, draw a line around tatted corner, touching the p's. With Mercerized Crochet (or matching embroidery thread), work buttonhole stitch around the tatted corners and over the penciled line as for cutwork, making a stitch into each p to join lace to linen. Cut away linen at back of lace.

**CENTER MAT . . .** Cut a piece of linen 18½ x 36 inches. Make a 1¼-inch hem all around with hemstitching. Work and insert 4 Corner Motifs as for Place Mats. Now make

LUNCHEON SET

2 more inserts as follows: Work as for Corner Motif until first Spray is completed. Skip 4 scallops of flower, attach shuttle thread: make a second Spray exactly opposite first Spray. Baste one insert at center of long side of runner,  $\frac{1}{2}$  inch in from hemstitching, and finish as for corners. Sew second insert at opposite long side to correspond.

**NAPKIN (Make 6)** . . . Cut 6 pieces of linen, each 18 inches square. Make a  $\frac{1}{2}$ -inch hem all around with hemstitching.

**NAPKIN INSERT** . . . Work as for Corner Motif until first Spray is completed. Baste Insert on corner of napkin so that outer edge is  $\frac{1}{2}$  inch in from hemstitched edges, and finish as for other inserts.

**JOSEPHINE KNOT** . . . This is an ornamental ring, consisting of the first half of a double stitch made a specified number of times.

**LONG PICOT** . . . To make a long picot, make a longer space between double stitches.

**TWO SHUTTLES** . . . When you wish to work rings in two colors, two shuttles are used. The two colors (one in each shuttle) may be alternated. When this takes place you drop the shuttle which made the preceding ring, pick up the second shuttle and make a ring as before. When the rings are separated by a chain, hold the thread of the second shuttle like the ball thread in Fig. 17.

## Collar Edging

**Materials:** TATTING-CROCHET, 2 balls. . . . A tatting shuttle.

Tie shuttle and ball threads. \*\* With shuttle make r of 4 ds, 7 p's sep by 2 ds, 4 ds, cl. \* R of 4 ds, join to last p of previous r, 2 ds, 6 p's sep by 2 ds, 4 ds, cl. Repeat from \* 2 more times, joining the last r at both sides. Tie ends securely and cut (a flower made). Repeat from \*\* for desired length, joining center p of one r to center p of one r of previous flower.

**EDGING** . . . Attach threads to first free p of r opposite joining of flowers, and \* make a ch of 6 ds, 7 p's sep by 2 ds, 6 ds, skip r, join to next p of next r, ch of 3 ds, 2 p's sep by 2 ds, 3 ds, join to next p of next r. Repeat from \* across. Tie ends and cut.

The motifs are  $3\frac{1}{4}$  inches square. For each place mat, cut linen  $13\frac{1}{2}$  by  $18\frac{1}{2}$  inches; for each napkin, cut linen  $12\frac{1}{2}$  inches square. Hemstitch, making 1 inch hems. For place mat, with a sharp pencil draw  $3\frac{1}{4}$  inch lines  $\frac{1}{4}$  inch inside the hemstitching and parallel to each corner. Using these lines as guides, complete  $3\frac{1}{4}$  inch squares in each corner and baste the motifs in place. Buttonhole stitch over the lines catching in the picots. Cut away the material from under the tatting. Finish napkins same as place mat on smaller scale required.

**H**OW IS THE FLOOR SHOW at your house? Shall we start with the living room? Want to give it a modern uncluttered feeling—a lap-of-luxury-look? Try Shaggy (made in 12 inch squares) and choose a color that is becoming to your room and you. We like two shades of dusty beige or caramel or grey but you may have other ideas. You can make it from wall-to-wall size or large enough to place in front of the sofa. If your room is in maple and your lamps are brass, accent it with Daisies, white on a rich, red background. For a colonial bedroom or sewing room there is—you guessed it!—Colonial, a charming circular design. For the younger generation there are little coal black scotties romping on a pale blue with cream background.

There is another gem of a round rug, Circular, for your guest room. For the well-groomed bathroom choose Mosaic or Checkers; for the fireside Crisscross or Stripes. Whether you choose to make a rug of yarn or rags, by following these easy-to-follow directions, you will soon be in a splendid rug-ged shape.

# No. P. H. 4789 . . . . Rag Rug

49 x 74 Inches

**Materials:** J. & P. COATS HEAVY DUTY MERCERIZED SEWING THREAD, 6 spools of Black . . . 20 pounds of rags of a heavy cotton fabric—half of this amount to consist of 3 dark shades (Green, Black and Brown) to be braided together to form the dark braid; and the other half in an assortment of mixed bright colors to be braided together to form the light braid.

It is important that the material used be of a similar weight and texture to assure uniformity of braid throughout.

Cut material into strips, each  $2\frac{1}{2}$  inches wide (see diagram). Join ends of pieces to form a long continuous strip by piecing the

ends on the bias. Roll strips into balls, keeping colors separately. These strips are then folded twice as shown in Fig. A and braided as in Fig. B. Braid 3 strips of the darker shades (Green, Black and Brown) together (1 strand of each color) to form dark braid. Braid 3 strips of bright colors to form light braid.

To make rug, measure off 25 inches of light braid and, using this as a straight center, coil light braid around this center, sewing each rnd in place until piece measures 17 x 42 inches. Cut off light braid. Coil dark braid around this section, sewing each rnd in place as before, until piece measures 26 x 51 inches. Cut off dark braid. Using light braid, work as before until piece measures 40 x 65 inches. Cut off light braid. With dark braid, work as before until piece measures 49 x 74 inches.

# AFGHANS . . . *fair and warm for cozy moments*

---

*H*OSPITALITY—the generous gesture, the understanding heart, the friendly atmosphere—these are what give a house its welcoming warmth.

We, of course, have a specially warm place in our hearts for afghans, and they have always reciprocated our affections, kept us comfortable and cozy through innumerable “forty winks” down the years. Their soft, luxurious texture, their glowing colors, their lovely patterns have always given them first place in our home. We take pride in presenting you with some of our favorite afghan patterns—may they keep your fingers busy and your toes warm!

# How to Make Afghan Stitch

Make a chain of 45 stitches. **1st row:** Insert hook in 2nd ch from hook and draw up a loop; retaining all loops on hook draw up a loop in each ch across (Fig. 1). There are 45 loops on hook. Yarn over and draw through 1 loop, \* yarn over and draw through 2 loops. Repeat from \* across (Fig. 2). **The loop which remains on hook always counts as the first st of next row (Fig. 3).** **2nd row:** Insert hook under 2nd vertical bar and draw loop through; retaining all loops on hook draw up a loop in each vertical bar across to within last vertical bar (Fig. 4). **Insert hook through the last vertical bar and the stitch directly behind it and draw a loop through—this gives a firm edge to this side (45 loops on hook), complete last half of row to correspond with first**

row. Repeat 2nd row as specified in directions. Then make a sl st in each vertical bar across. Break off.

**How to Increase in Afghan Stitch:** *To inc 1 vertical bar at beginning of row, insert hook under vertical bar directly below loop on hook (Fig. 5) and draw loop through. Retaining all loops on hook work across row as before to last vertical bar—to inc 1 vertical bar at end of row, insert hook under last vertical bar and draw up a loop, insert hook under stitch directly behind last vertical bar (Fig. 5) and draw loop through (1 st increased at both ends).*

**How to Decrease in Afghan Stitch:** *To dec 1 st at both ends of row, insert hook under 2 vertical bars at one time (Fig. 6) and draw loop through.*
